■■■■■ SINHA:

Your application for permanent residence is now ready for finalization pending the confirmation of your permanent residence status. You'll complete this process through the Permanent Resident Portal (PR Confirmation).

Please provide the requested information **within 7 calendar days** to ensure there are no undue delays.

Confirming your permanent residence using the portal

In the portal, you'll confirm that you and your dependants (if applicable) are in Canada, provide your Canadian address and submit your photo to create a permanent resident card.

In the portal there are two steps: step 1: declaring your presence in Canada is a requirement to become a permanent resident and step 2: submitting a photo and a Canadian address is a requirement to receive your permanent resident card.

You must have an email address in order to complete this process. You need to access the portal yourself. Your representative cannot access the portal on your behalf. **If you are a representative and are receiving this email on behalf of a client, you must forward this message to your client.**

Next steps:

- As the principal applicant, you'll act on behalf of your dependants (if applicable). If you would prefer your dependants to have their own accounts, please indicate so in your reply to this email and provide their valid email addresses.
- In your reply to this email, copy and paste the template below and fill in the information for **yourself** and for **each member** of your family (if applicable). If you are not sure of the exact date(s) of your entries to Canada, you can provide your best estimate. IRCC requires this information in order for us to create a Confirmation of Permanent Residence document for you (and your family members if applicable) and to create an account for you to become permanent resident(s) through the portal.
